## Boat Description

Moonshine Mist is a 55ft Reverse Layout Cruiser stern fitted out by Stroud Innovations in 2022. This boat has been finished to the highest of standards meeting all the latest RCD best practices with everything handmade and fitted for this boat.

The shell was made by ABC (Boston) and provides a generous cruiser stern with seat railings. The hull also has 2 x stern gas locker bottles, a large sliding hatch, pronounced hand rails along the length as well as a good sized bow deck with 2 x storage/seat lockers and a large bow locker. The shell has near vertical sides providing ample roof space with the added benefit of a wider larger feel in the cabin.

Externally Moonshine Mist Has been hand painted in 2022 the 9 coat paint standard using Symphony Narrowboat paints. This boat has a lovely smoot finish with gunmetal grey on the side panels, a cream anti-slip roof and black gunwales and deck.

Internally Moonshine Mist has been fitted generously with all carpentry handmade and bespoke to fit this boat. The flooring has been finished in a herring bone style dark wood lament acoustic deadening floor that beautifully complements the light grey T&G under the gunwales. The cabin sides have been finished with white panels and oak trims to give a light bright feel in the cabin space. The cupboards and bulkhead walls have been finished in a gunmetal grey finish bringing continuity with the exterior. The paint used is a hard-wearing acrylic paint which allows for easy cleaning as well as bringing longevity.

As you step down through the rear hatch you will immediately notice the light, bright feel of the boat thanks to the large hopper style windows in the saloon and galley. On the port side are the switch panels, behind which you will find

---

the inverter/charger, galvanic isolator, solar charge controller, all the wiring which has easy access and has been wired to all the latest RCR best practices. On the starboard side is a generous side cupboard, ideal for storing some of the cruising essentials.

The Saloon has been designed to be clean and open and can easily accommodate a 3 seater sofa/bed or 2 large lazy boy style chairs. There is some storage either side of the steps, with two cubby holes above. The Saloon has 12v and 240v sockets and a TV aerial point mounted on the wall ready for the TV of your choice.

The Saloon blends nicely with the Galley space thanks to the versatile breakfast bar worktop space which gives a lovely open plan feel to the boat and has the added touch of a USB Outlet PD & QC 3.0 Fast Charger. Between the galley and saloon is a side hatch which allows extra light and ventilation to the space.

The Galley itself has been fitted with painted units, 27mm solid oak worktop and quality fittings giving this a not only a stylish finish but a practical space with the 2 burner hob, an eye line built in oven/grill and a large 85l fridge. There is ample worktop and storage for an extended cruise.

The shower room is further forward and utilizes the full width of the boat. This allows for a full-sized quadrant shower which has been fitted into the gunwales giving you more room than usually with the added bonus of a storage shelf internally. This space also comprises a large storage unit, finished in the same style as the galley, which has been fitted with a round ceramic sink and stainless-steel mixer tap. A Thetford cassette toilet has also been fitted in this space. This side loading of the cassette allows for easy emptying.

The bedroom has been well considered to not only provide the storage required but also gives an open, cosy space to rest in. The bedroom also has a side hatch on the starboard side for extra light and ventilation. The handmade cupboard and drawer space really does give you all the storage you need, with additional storage underneath the bed in the form of two large drawers and further large capacity space for the items you don't need to hand. The steps leading up and out through the handmade solid oak double doors also provide much needed storage but provide easy access to the water pump and stop cock if required.

## Engine Specification

Engine Make	Barrus Shire
Engine Hours	55
Bow Thruster	N/A
Diesel Tank Capacity	275 litres - Approx
Additional Systems	

## Water & Heating Systems

---

## Moonshine Mist - 55ft Cruiser Stern

---
